Losses

Losses carried forward

Companies may carry forward tax losses incurred during a tax year over the next five years to be offset against taxable income.

Group relief

Current year tax losses may be surrendered by one Cyprus tax resident group company to another. A group company which is tax resident in another EU country may also surrender current

year tax losses to a Cyprus tax resident company, provided such company firstly exhausts all possibilities available to utilise its tax losses in its country of residence or in the country of any intermediary EU holding company.

Group relief is available if both companies are members of the same group for the entire tax year.

Two companies are considered to be part of a group for group relief purposes if:

- one is a 75% subsidiary of the other, or
- both are 75% subsidiaries of a third company.

The interposition of a non-Cyprus tax resident company does not affect the eligibility for group relief as long as such company is tax resident in either an EU country or in a country with which Cyprus has either a tax treaty or an exchange of information treaty (bilateral or multilateral).

Where a company has been incorporated by its parent company during the tax year, this company will be deemed to be a member of this group for group relief purposes for that tax year.

Losses of a permanent establishment outside the Republic

Tax losses arising from a permanent establishment outside the Republic can be offset against taxable profits of the company arising in the Republic in the same year. However, any subsequent taxable profits from such a permanent establishment are taxable, up to the amount of losses utilised.

Tax credit for foreign tax paid

Any foreign tax paid on income subject to income tax in Cyprus is credited against any Cyprus income tax payable on such income, irrespective of the existence of a tax treaty.

Insurance companies

Insurance companies are generally taxable in the same way as all other companies. In the case where there is no tax payable or where the tax payable on the taxable income of the life business is less than 1.5% of the gross insurance premiums, then the insurance company pays the difference as additional tax.

Pension income from services rendered abroad

The pension income of any individual resident in the Republic, which arises from services rendered abroad, is taxed at a rate of 5% for amounts exceeding €3.420 per annum.

The taxpayer has the right to choose to be taxed either under the special mode of taxation as stated above or under the personal income tax rates. If the latter is chosen the pension is added to the individual's aggregate taxable income.

Widow's pension

The total amount of widow's pension received from the Social Insurance Fund and/or other approved pension funds is taxed at the flat rate of 20% on amounts exceeding €19.500. The tax payer can however elect to be taxed in accordance with the personal income tax rates.

Intellectual property rights etc

The gross income arising from intellectual property rights, other exploitation rights, compensations or other similar income arising from sources within the Republic, of a person who is not resident in the Republic, is subject to withholding tax at a rate of 10% (unless a tax treaty provides for a lower tax rate).

Royalties received by a connected company registered in a European Union Member State are exempt from tax (subject to conditions).

Rights granted for use outside the Republic are not subject to any withholding tax.

Film royalties etc

The gross income derived by a non-resident person in respect of royalties arising from film projection in the Republic is subject to withholding tax at a rate of 5% (unless a tax treaty provides for a lower tax rate).

Royalties received by a connected company registered in a European Union Member State are exempt from tax (subject to conditions).

Profits of professionals, entertainers etc

The gross income derived by an individual not resident in the Republic from the exercise in the Republic of any profession or vocation, the remuneration of public entertainers not resident in the Republic, and the gross receipts of any theatrical or musical or other group of public entertainers, including football clubs and other athletic missions from abroad, derived from performances in the Republic is subject to a 10% withholding tax.

Income from Oil & Gas related activities

The gross amount or other income derived from sources within the Republic by any person who is not resident in the Republic, which does not arise from a permanent establishment in the Republic, as consideration for services carried out in the Republic with respect to the extraction, exploration or exploitation of the continental shelf, subsoil or natural resources, as well as the installation and exploitation of pipelines and other installations on the ground, the seabed or above the surface of the sea, is subject to tax at the rate of 5%.

Payment of tax withheld

Tax withheld on payments to non Cypriot residents should be paid to the Tax Department by the end of the following month.

In case where the tax withheld is not paid within the deadline, an additional penalty of 5% is imposed on the tax withheld in addition to any interest that may be imposed.

Dividends

Exemptions:

- dividends received by a company resident in the Republic from another company resident in the Republic, excluding dividends paid indirectly after the lapse of 4 years from the end of the year in which the profits which were distributed as dividends were generated (please see anti-abuse provision in note 9).
- dividends received directly or indirectly from dividends on which defence contribution has already been paid.
- dividends received by a company resident in the Republic or a company not resident in the Republic which maintains a permanent establishment in the Republic from a company which is not resident in the Republic.

This exemption does not apply if:

- (a) more than 50% of the activities of the non-resident dividend paying company lead to investment income; and
- (b) the foreign tax burden on the income of the dividend paying company is substantially lower than the tax burden of the Cyprus tax resident company or the non-resident company which has a permanent establishment in the Republic.

Interest income

Interest earned as a result of the ordinary carrying on of the business (including interest closely connected to the ordinary carrying on of the business, and interest earned by a collective investment scheme) is not considered interest for special defence contribution purposes and is exempt from special defence contribution.

An individual whose total annual income, including interest, does not exceed €12.000 who receives interest which has been subject to defence contribution, has the right to a refund of the amount of defence contribution suffered in excess of 3%.

Deemed distribution

A company resident in the Republic is deemed to have distributed 70% of its profits after taxation in the form of dividends at the end of the two years from the end of the tax year in which such profits were generated. Special defence contribution is imposed to the extent that the ultimate direct/indirect shareholders of the company are Cyprus tax resident and Cyprus domiciled individuals.

The deemed distribution provisions do not apply to profits which relate directly or indirectly to non-resident or non-domiciled shareholders.

For the purpose of calculating the amount of the deemed distribution, the term «profits» means the accounting profits arrived at using generally acceptable accounting principles, after the deduction of any transfers to reserves as specified by any law. Any losses brought forward, group losses as well as any amounts, including any additional depreciation, which emanate from the revaluation of movable and immovable property are ignored.

The term «taxation» includes in addition to the corporate tax:

- the special defence contribution
- the capital gains tax and
- any tax paid abroad that has not been credited against income tax and/or special defence tax payable for the relevant year

In calculating the profits after taxation that are subject to deemed distribution for tax years 2012, 2013 and 2014 a deduction is provided for the acquisition cost of plant and machinery (excluding private saloon cars) that were acquired during these tax years.

The amount of deemed dividend is reduced by the amount of actual dividend distributed during the year the profits were generated, or the following two years.

In case where an actual dividend is paid after the deemed dividend distribution date, any deemed distribution reduces the actual dividend on which the defence contribution is withheld.

In the case of an individual not resident or non domiciled in the Republic receiving dividends from a company which is resident in the Republic, emanating from profits which at any stage were subject to deemed distribution, the defence contribution paid as a result of the deemed distribution which is attributable to such person is refundable.

A person who is deemed to receive dividends from a collective investment scheme is subject to a defence contribution of 3% on the deemed dividend.

Disposal of assets to shareholders at less than market value

In the case where a company disposes an asset to its Cyprus tax resident and domiciled shareholder (individual) or to his/her relative of up to second degree of kindred or his/her spouse, without consideration or for a consideration which is less than the market value of the asset disposed, it is deemed that the company has distributed dividends to its shareholder, equal to the difference between the market value of the asset and the amount of the consideration.

The above provision will not apply in case where the asset was received by the company by way of a gift from its shareholder (individual) or from his/her relative of up to second degree of kindred or from his/her spouse.

Company dissolution

The aggregate profits of the last five years prior to the company's dissolution, which have not been distributed or been deemed to be distributed, will be considered as distributed on dissolution and will be subject to defence contribution.

Companies that are under voluntary dissolution or liquidation are obliged to submit within one month from the date of the approval of the resolution, a deemed dividend declaration and pay any special defence contribution in relation to the profits of the specific tax year and the two preceding years.

The deemed dividend distribution provisions do not apply on any accounting profits arising during the dissolution or liquidation if the assets of the company are not sufficient for the repayment of its creditors and no amount is available to be distributed to its shareholders.

Where assets are distributed to the company's shareholders upon the company's liquidation or dissolution, which have a market value that exceeds the cost of their acquisition by the company, the deemed distribution provisions will apply. The amount of the dividend that is deemed to be distributed to its shareholders will be equal to the difference between the market value of the assets and the cost of acquisition of the particular asset by the company.

The deemed dividend distribution of profits that become realized upon the company's dissolution or liquidation may not exceed the amount of the net assets distributed to the shareholders.

The dissolution of an open-ended or closed-ended collective investment scheme falls under the deemed distribution provisions but the undistributed profits will be subject to special defence contribution of 3%.

These provisions do not apply in the case of dissolution under reorganisation, in accordance with certain prerequisites set out in the relevant Regulations or where the shareholders are not resident or non-domiciled in the Republic.

Reduction of capital

In the case of a company's capital reduction, any amounts paid or due to shareholder individuals in excess of the amount of the share capital that was actually paid by the shareholder will be treated as a deemed dividend subject to special defence contribution (provided that the ultimate shareholders are Cyprus tax resident and Cyprus domiciled individuals).

The buy back or redemption of units or other ownership interests in an opened-ended or closed-ended collective investment scheme is not considered a capital reduction and is not subject to special defence contribution.

Tax credit for foreign tax paid

Any foreign tax paid on income subject to special defence contribution will be credited against any special defence contribution payable on such income irrespective of the existence of a tax treaty.

PROFITS FROM SHIPPING ACTIVITIES

The following are exempt from taxation in accordance with the provisions of the Merchant Shipping (Fees and Taxing Provisions) Law and are subject to tonnage tax:

- The income of a qualifying ship-owner from the operation of a qualifying Cyprus, community and/or foreign (under conditions) ship, in a qualifying shipping activity.

- Salaries or other benefits paid to the masters, officers and the crew of a qualifying Cyprus ship in a qualifying shipping activity.

- gains from the disposal of shares of companies not listed on a recognized stock exchange which own immovable property situated in the Republic and
- gains from the disposal of shares of companies which indirectly own immovable property situated in the Republic and derive at least 50% of their market value from such immovable property

In computing the capital gain, the value of the immovable property as at 1 January 1980 (or cost if the date of acquisition is later), the cost of any additions after 1 January 1980 (or the date of acquisition if later), any expenditure incurred for the production of the gain and the indexation allowance, are deducted from the sale proceeds.

The following expenses are not considered expenses wholly and exclusively for the production of the gain and therefore are not deductible:

- a) Immovable Property Tax
- b) Immovable Property Fees
- c) Sewerage Council Fees

The following disposals of immovable property are exempt from capital gains tax:

- gift to a company whose shareholders are members of the donor's family and continue to be members of the family for a period of five years from the date of the gift

company had also acquired the property in question via donation. However if the shareholder disposes the property within 3 years then the shareholder will not be entitled to the deductions listed below

- gifts to a charitable organisation or the Republic

SPECIAL CONTRIBUTIONS FOR THE EMPLOYEES, SELF-EMPLOYED INDIVIDUALS AND PENSIONERS OF THE PRIVATE SECTOR

Each employee, self-employed, or pensioner of the private sector, shall pay a special contribution to the Republic. Gross monthly earnings €	Special Contribution %

In the case of an employee of the private sector, the payment of the special contribution is shared equally by the employer and the employee, (i.e. 50% of the special contribution is paid by the employee and 50% is paid by the employer).

The special contribution paid is deductible from the taxable income of the employee/employer that it relates to.

Imposition and payment of the special contribution

- b) In the case of a self-employed, the amount of special contribution is declared on a form approved by the Commissioner and paid in two installments following the same procedure and dates provided for the provisional income tax (i.e. July 31 and December 31).

1. For employment commencing during or after 2012, the exemption applies for a period of 5 years starting from the tax year following the year of commencement of the employment, with the last eligible tax year being 2020.
2. The exemption applies for a period of 10 years. For employment commencing during or after 2015, the exemption does not apply in case the employee was a Cyprus tax resident in the preceding tax year or for at least 3 out of the last 5 tax years immediately prior to the tax year of commencement of employment.
3. Persons trading in FX have an option to make an irrevocable election to be subject to tax only on realized FX differences.

Two Circulars have been issued by the Tax Authorities clarifying that the term also includes among others, options on Securities, short positions on Securities, futures/forwards on Securities, swaps on Securities, depositary receipts on Securities (ADRs, GDRs), rights of claim on bonds and debentures (rights on interest of these instruments are not included), index participations only if they result on Securities, repurchase agreements or Repos on Securities, units in open-end or close-end collective investment schemes. The redemption of participation or share in an open or closed-ended collective investment scheme constitutes a disposal of Securities.
5. The income tax exemption shall not apply to the extent that dividends are deductible from the taxable income of the dividend paying company. Dividends that do not qualify for the income tax exemption are not considered as dividends for special defence contribution purposes (see page 16).

6. Expenditure incurred for the development or acquisition of intangible assets as defined in the Patent Rights Law, the Intellectual Property Law and the Trademarks Law is tax deductible.

The annual capital allowance deduction on such intangible assets is equal to 20% of the acquisition cost. The capital allowance is tax deductible over 5 years including the year of acquisition.

An 80% deemed deduction applies to the net profit from the exploitation or disposal of such intangible assets (including the compensation from irregular use of these intangible assets).

The net profit is calculated after deducting from the income or profit that is generated from the exploitation or disposal of such intangible assets, all direct expenses associated with the production of this income or profit.

Where a net loss is created, only 20% of such loss will be eligible to be surrendered/carried forward.

7. Equity introduced to a company as from 1 January 2015 (new equity) in the form of paid-up share capital or share premium is eligible for an annual notional interest deduction (NID). The annual NID deduction is calculated as a percentage (reference rate) on the new equity. The relevant reference rate is the yield of the 10 year government bond (as at December 31 of the prior tax year) of the country where the funds are employed in the business of the company, plus a 3% premium (subject to a minimum rate which is the yield of the 10 year Cyprus government bond as at the same date, plus a 3% premium). The NID is subject to certain anti-avoidance provisions.
8. Prior to 16 July 2015, individuals were subject to special defence contribution if they were tax resident in Cyprus. As from 16 July 2015, individuals are subject to special defence contribution if they are both Cyprus tax resident and Cyprus domiciled. contribution for defence if he/she has a domicile of origin in Cyprus per the Wills and Succession Law (with certain exceptions) or if he/she has been a tax resident in Cyprus for at least 17 out of the 20 tax years immediately prior to the tax year of assessment. Anti-avoidance provisions apply.

9. In case where actual dividend is received by a company which is owned indirectly by Cyprus tax resident and domiciled individual(s) and the Commissioner considers that the interposition of this company as a shareholder of the company paying the dividend does not serve any substantial commercial or economic purpose but is primarily intended to prevent, reduce or postpone the payment of special defence contribution, the Commissioner may deem that the dividend is paid directly to the Cyprus tax resident and domiciled individual(s) who directly/indirectly control the company receiving the dividend and require the payment of the special defence contribution on the dividend either from the company receiving the dividend or from the Cyprus tax resident individual(s) who directly/indirectly control the company.
10. The immovable property must be acquired through a purchase or purchase agreement and not through an exchange or donation, at market value, from a non-related party. This exemption does not apply to disposals of immovable property that have been acquired under foreclosure procedures.
